Final Assessment Week

Belief Statement:

BCCHS believes that Semester and Final Performance Assessment is a critical component in the academic process. Assessment must measure a student's mastery of the subject matter and the ability to prepare to successfully demonstrate knowledge of the subject matter. The assessment should measure the student's ability to recall and retain information and to demonstrate through his or her own words or actions comprehension of that information. The means for assessment may vary, but in all cases, will measure cumulatively the material covered in the time period for which the assessment is being given.
