Letter of introduction from student applicant. Pease include current living situation - parents, pets, type of home, etc., student interests, motivation for studying in the US, type of host family preferred, and any other information that will help a potential host family get to know student applicant.	I'm Arthur, 17 years old, and I'm currently staying in my uncle's house for the summer. He has 2 dogs, 3 cats, a couple of fish and a 4 year old son. It is a very big house unlike the apartment I used to live here in Brazil. I love hanging out with friends, playing the drums and listening to music, watching TV and playing video games chilling in my room. I want to study in the United States because I believe it provides me with better opportunities for my future and I really like the country and enjoy being there. I would like to have my own room for my next family but I wouldn't have any actual problem with sharing it with a potential host sibling, I would be more than glad to help with the daily chores like cleaning and cooking if needed or wanted and would be fine with family activities with them.
